EDUCATING

CITIZEN DESIGNERS

IN SOUTH AFRICA

ELMARIE COSTANDIUS

HERMAN BOTES

Educating Citizen Designers in South Africa is the first book of its kind to appear in post-apartheid South Africa and it is therefore both overdue and extremely welcome. The book aims at sharing critical citizenship design teaching and learning pedagogies by including contributions from a range of design educators, and one student, who work in different design disciplines, such as architecture, graphic and product design. Critical citizenship education is explicated in relation to a range of theories and new and existing models. Numerous contemporary case studies and examples of design projects from a range of South African Higher Education Institutions are included. As such, a variety of perspectives emerge, including the consensual, where the aim of critical citizenship education is viewed as promoting social justice, shared values and critical thinking.
